DCI/IC 74-132  
14 August 1974

**MEMORANDUM FOR: USIB Principals**

**SUBJECT: Annual DCI Report on the Intelligence Community**

Reference is the D/DCI/IC memorandum, subject as above, dated 23 May 1974, which requested inputs from CIA, DIA, and NSA, which had previously reported directly to the JFIAB, and invited inputs from other USIB Principals by 1 September. The following is provided as supplemental guidance:

a. The previously indicated limitation of reports to not more than ten single-spaced, letter-size pages in length can be relaxed for any organization which considers that it requires a somewhat longer report to present its information adequately. Each contributor, however, should provide an executive summary of no more than two or three pages which highlights the contents of the report.

b. Particular attention should be given, also, to reporting on what has been achieved by way of improvement in the substantive information provided to users. The DCI considers that the entire intelligence effort is judged by the quality, scope and timeliness of the substantive output. It is important, therefore, that the annual reports give emphasis to citing improvements in the substantive content of the FY 1974 intelligence products.

Acting Deputy to the DCI for the  
Intelligence Community
